Project 2
Team Size: 4

Domain: - Travelling

Project description-

This a travel search engine website. And since it's a search engine, it's a great place to start.
The site compares prices from many different websites all in a single spot so you can easily see where the cheapest options are. Most of the time, you'll end up clicking through to a different site to complete your booking. Kayak Hacker Fares are a great way to save money on your flight. These can be pretty good deals, and something that doesn't always appear in search results of other websites.

Roles And Responsibilities:
➤ Discuss and clarify requirements provided by the Product Manager.
➤ Design the Solution with Web Services.
➤ Used Angular Directives like ngModel, ngFor, ngClass, ngIf, hidden, etc.
➤ Developed the project's web page as Single Page Application (SPA) by using Angular.
